

Sistema New Brunswick

'10,000 Children' Campaign Progress and Impact

NEW BRUNSWICK • NOUVEAU-BRUNSWICK

10,000
CHILDREN - ENFANTS

With profound gratitude, we present this progress and impact report to the J.T. Clark Family Foundation, highlighting the transformative milestones achieved through your generous \$500,000 pledge. Together, we are empowering over 1,200 children across New Brunswick, fostering their artistic talents and inspiring them to reach their full potential through the power of music.

Executive Summary

Key Highlights:

Matching Milestone Exceeded: By December 2022, we secured \$1.6 million in new funding commitments, exceeding the matching pledge goal. This demonstrates the widespread support and trust in Sistema NB's mission.

Program Expansion:

- The Fredericton Sistema NB Centre added one new Teaching Artist to its faculty in each of 2022, 2023, and 2024, as planned. Enrollment grew to a record 90 students. This year we introduced a new Double Bass class to further enhance programming quality.
- In September 2024, the St. Stephen Sistema NB Centre opened its doors, welcoming 25 students and is already making a strong impact within the community.
- Plans are well underway for the Sistema NB Oromocto Centre, now set to open, ahead of schedule, in February 2025. This 11th center will serve children of veterans and military families, incorporating the proud tradition of military bands into its curriculum.
- Campaign Success: The campaign has surpassed \$11 million in pledges, with full confidence in reaching the \$12 million goal in 2025.

Looking Ahead

Your support has laid a strong foundation for continued growth, ensuring that children across New Brunswick can access life-changing opportunities through free, world-class music programming. Together, we are addressing intergenerational poverty through the arts and creating pathways to hope and achievement.

On behalf of the children, families, and communities we serve, thank you for your remarkable generosity and partnership. Your commitment is not only changing lives today but building a legacy that will inspire future generations.
